

# Tennis for Tots

Tennis Tots by Randall Ross Tennis is a rewarding experience for both you and your child. Developed by Randall and early childhood learning experts, Tennis Tots brings tennis to your child for a fun and tailored experience that is just right for his or her age. The six week sessions are 30 to 45 minutes long with 4-6 children in a class. Kids are introduced to the racket, ball, hitting and movement. Building this basic tennis awareness and muscle memory is invaluable as your child grows and continues to develop tennis skills. Parents learn the benefits of tennis and how to extend tennis fun to the home. We create a tennis experience your tots will look forward to each week. Tennis Tots is a great foundation that gives your child the opportunity to excel at tennis.
